**All of the above are subject to local and state tax.**

**TO ALL CUSTOMERS: Bills should be received by the first day of the month. WUD IS NOT RESPONSIBLE IF YOU DO NOT RECEIVE YOUR BILL. It is the customer's responsibility to contact WUD to inquire about the amount of the bill. If you fail to pay your bill by the tenth of the month, you will be charge a penalty of 10% of your balance due. Failure to pay your bill by the 19<sup>th</sup> of each month will result in a \$50.00 service charge and water will be shut off on the 20<sup>th</sup> of each month. THE \$50 SERVICE CHARGE WILL STILL BE OWED EVEN IF WATER SERVICE IS NOT INTERRUPTED. The full amount of the bill (including all fees) will be owed in order for water service to not be interrupted or turned back on. No water will be turned back on after 3:00 p.m. daily, weekends, or holidays. There will be a \$30 service charge for all returned checks. These charges are subject to change at any given date by the board of directors.**

Cross Connection Meters- Witt Utility does not remit any connections with our water such as well, with the city, etc. Not only is this very dangerous for you as well as our other customers, but the Witt Utility Board of Commissioners also prohibits it. This policy grants Witt Utility authorization to inspect customer's premises annually. If anyone should violate this policy, their service with Witt Utility will be corrected, or terminated. One meter is required per household. No exceptions. Duplex and apartments require one meter per unit.

Customers are responsible for a shut off valve in their home. The meter shut off is property is property of Witt Utility and not to be tampered with by customers.

Board meetings are the third Thursday of each month at 4:30 P.M.

By my signature below, I agree to abide by and understand the above policies:

CROSS - CONNECTION CONTROL PLAN  
FOR  
WITT UTILITY WATER SYSTEM

INTRODUCTION

GOAL

The goal of the Witt Utility Water System is to supply safe water to each and every customer under all foreseeable circumstances. Each instance where water is used improperly so as to create the possibility of backflow threatens the health and safety of our customers and threatens our chances of realizing this goal. The possibility of backflow due to improper use of water within the customer's premises is especially significant, because such cross-connections may easily result in the contamination of our water supply mains. Such situations may result in the public water system becoming a transmitter of disease organisms, toxic materials or other hazardous substances which may adversely affect large numbers of people. The only protection against isolation of such hazards from the water supply lines by properly installed approved backflow prevention devices. Private wells and city water can not be connected in any way.

PLAN OF ACTION

The Witt Utility Water System is determined to take every reasonable precaution to see that cross-connections are not allowed to contaminate the water being distributed to its customers. This cross-connections plan outlines a program of action designed to control cross-connections within the area served by the Witt Utility Water System. This plan is intended to be a practical guide for safeguarding the quality of water distributed from becoming contaminated or polluted through backflow.

AUTHORITY OF CONTROLLING CROSS CONNECTIONS

A copy of policy No. \_\_\_\_\_ adopted, January 12, 1987 by the Board of Commissioners is attached to the plan as Appendix 1. This policy prohibits cross-connections within the water system, authorizes the water system to make inspections of the customer premises, requires that cross-connections hazards be corrected and provides for enforcement. This policy expresses a clear determination on the part of the Board of Commissioners that the water system is to be operated free of cross-connections that endanger the health and safety of those depending upon the public water supply. This policy is considered to be a sound basis for the control of cross-connection hazards by the operating staff and management of Witt Utility Water System. The provisions contained within this policy are in keeping with the requirements set forth in Section 68-13-711 of The Tennessee Code Annotated and Section 1200-5-1-17(6) of the Tennessee Department of Health and Environment Rules governing Public Water Systems.

I \_\_\_\_\_ agree to abide by the rules set forth by Witt Utility on Cross-connection .
